Vo Nhat Hao

Software Engineer

0334944908 vonhathao.it@gmail.com github.com/nhathao512 Cu Chi District, Ho Chi Minh City

OBJECTIVE

Recent Software Engineering graduate with hands-on experience in full-stack web and mobile development. I am eager to grow my career as a **Software Engineer**, leveraging both web and mobile development skills to build innovative, **AI-powered** solutions. I'm also driven to continuously expand my knowledge in **AI** and modern development workflows to contribute to high-quality, efficient software products.
Portfolio: https://vonhathao.vercel.app/

EDUCATION

Ton Duc Thang University Oct 2022 - Apr 2026

Major: Software Engineering

GPA: 3.1/4.0

WORK EXPERIENCE

TEXPO TECHNOLOGY SOLUTION COMPANY LIMITED Jun 2025 - Aug 2025

Role: Mobile & Web Developer Intern

• Built and maintained mobile application features using Flutter (Dart).
• Developed and customized ASP.NET WebForms modules using ASCX, JavaScript, and C#.
• Worked with existing legacy web systems, improving UI behavior and functionality.
• Assisted in integrating APIs and handling data flow between frontend and backend.
• Used Git for version control and followed team-based development processes.

PROJECTS

ONLINE STORE Nov 2024 - Jan 2025

Role: Full-stack Developer

Git: https://github.com/nhathao512/Online-Store
Description

- Developed **a full-stack e-commerce** application with product, order, and user management features.
- Built RESTful APIs and authentication using **JWT**.
- Integrated frontend with backend services and handled data persistence.
- Deployed application using **Docker** and **Redis** for caching.

Technology: Java Srping Boot, JWT, AngularJS, RestAPI, Docker, Redis, MySQL,

E - COMMERCE Apr 2025 - Jun 2025

Role: Full-stack Developer

Git: https://github.com/nhathao512/E-Commerce-DP
Description:

- Developed a **full-stack e-commerce** platform supporting product browsing, shopping cart, and order management functionalities.
- Designed and implemented **RESTful APIs** for handling user authentication, product data, and order processing.
- Built a responsive user interface and integrated it with backend services for seamless data flow.
- Implemented core e-commerce features such as user login, product catalog, and cart/checkout system.
- Managed data persistence using relational databases and ensured efficient data handling.

Technologies: Java Spring Boot, REST API, MongoDB, ReactJS , JWT, Design Patterns,...

Smart Job Finder

Sep 2025 - Jan 2026

Role: Full-stack Developer

Git: https://github.com/orgs/SmartJobFinder/repositories

Description

- Developed a Smart Job Recruitment System with **Mobile App**, **Web Client**, **Admin Dashboard**, **Backend**, and **AI services**.
- Implemented key features for **candidates** (job search, CV builder, one-click apply) and **recruiters** (job posting, candidate management, interview scheduling).
- Integrated **AI functionalities** (scam job detection, CV–JD matching, AI interview coach with voice-to-text) using **Python/FastAPI**.
- Built a scalable **microservices-like** architecture with **Spring Boot**, Next.js, and Flutter, using **MySQL**, **Redis**, and **WebSocket**.
- Integrated 3rd-party services including **Google OAuth** for authentication, **VNPay** for payments, and **Cloudinary** for media storage.

Technology: Java Spring Boot, Redis, WebSocket, Fluter, ReactJS, Next.js, TypeScript, Python, MySQL, Docker, Git,...

SKILL

Web Developer	ReactJS, AngularJS, Express, Java Spring Boot, Next.js
Mobile Application	Android Development (Java), Flutter
DevOps	Docker, Docker Compose, CI/CD (GitHub Actions), AWS EC2, Linux, Nginx
English	Basic communication, reading and understanding documents

CERTIFICATION

English Certificate B2 (Aptis ESOL Score: 157/200)	2023
